HACKTOBERFEST HACK DAY

HYDERABAD

MLH × NIAT - KKH

SUBMISSION GUIDE • DETAILS ONLY

HOW TO SUBMIT YOUR PROJECT

1. **FORK THE REPOSITORY**
   Open the Hack Day repository and click Fork to create your own copy on GitHub.

2. **CREATE A SUBMISSION BRANCH**
   Create a branch in your fork, for example: submission/my-project.

3. **USE CONTRIBUTING.md + SUBMISSION TEMPLATE**
   Follow the repository's CONTRIBUTING.md for the submission process. Copy SUBMISSION_TEMPLATE.md into submissions/ and rename it using your project name and team or attendee name.

4. **FILL IN SUBMISSION DETAILS**
   Complete the project details, challenge evidence, public project repository link, demo instructions, and other requested information in the Markdown file.

5. **DO NOT COMMIT YOUR PROJECT CODE HERE**
   Your actual project code stays in your own public GitHub repository. In this Hack Day repository, submit only the submission details Markdown file.

IMPORTANT

You are NOT required to commit your project code to the Hack Day repository.

OPEN YOUR PULL REQUEST

SUBMISSION DETAILS → PULL REQUEST

6

COMMIT ONLY THE SUBMISSION FILE

Commit the completed Markdown submission file to your branch. Do not add or commit your project source code to this repository.

7

OPEN A PULL REQUEST

Open a PR from your fork to the React Hyderabad Hack Day repository, targeting the main branch.

8

USE A CLEAR PR TITLE

Use: Submission: Project Name - Team or Attendee Name. Add a short description if needed.

9

CHECK BEFORE SUBMITTING

Make sure the submission file is inside submissions/, your project repository is public and accessible, and all links and details work.

FINAL CHECKLIST

- ○ Project code is in your own public GitHub repository
- ○ Submission details are in submissions/
- ○ CONTRIBUTING.md process has been followed
- ○ No project source code is committed here
- ○ Repository link and demo instructions are included
- ○ Pull Request targets the main branch
